Portfolio

Experience

Product designer *Uneleap*
I am the lead product designer here at uneleap. I handle all major designs in the company, both web and mobile designs.

Graphics & branding designer *Tailr.ng*
Made abstract designs to be printed on t-shirts and other fabric materials.

UI designer *Orpheus*
I was responsible for the user-interface design. Worked with intended wireframes to create desired designs. Created night-mode designs for it and also the Orpheus logo.

UI/UX designer *Audiosync*
Created and worked with wireframes to accomplish this design. Used a series of concepts to arrive at a desired design.

Web design *MoyoMartins*
This is my portfolio created with react.js. It shows a couple of my work and tells a little about me.

Logo & Branding design *Vale*
Redesigned the logo and created possible branding designs to go with the logo.
